Game Description

Blackjack Squeeze is an optional bonus and progressive wager for standard Blackjack and Blackjack-variant games and can be played with 1-8 standard, 52-card decks. The object of *Blackjack Squeeze* is for the dealer's up-card to rank between the player's first two cards. The outcome of *Blackjack Squeeze* is not dependent on the base game's outcome.

Rules of Play

1. To begin each round, players must place a standard base game wager and may place any available optional bonus wagers.
2. After all wagers have been placed, two cards are dealt to each player, face-up, and two cards are dealt to the dealer, one face-up and one face-down, as per standard blackjack dealing procedures.
3. The dealer then follows house procedures to reconcile the *Blackjack Squeeze* wagers based on the player's first two cards and the dealer's up-card.
 - a. *Blackjack Squeeze* wagers are paid according to the corresponding payable(s) in Appendix A.
 - b. *Blackjack Squeeze Progressive* wagers are paid according to the corresponding payable(s) in Appendix B.
 - c. *Blackjack Squeeze Dynamic Progressive* wagers are paid according to the corresponding payable(s) in Appendix C.
4. The primary game is now played to completion.
